Preventive care keeps women healthy! Requiring insurers to cover preventive health care like contraception, breast feeding support and screening for domestic violence and HIV -- without charging co-pays -- makes these services affordable for more women. And it helps women stay healthy.

Employers should not be able to deny a woman this coverage. Medical experts agree that this preventive health care is necessary for all women and that contraception is preventive care. Religious employers should not be given the power to leave contraceptive coverage out of their insurance plans because it will exclude some women from getting the care they need to be healthy, have healthy pregnancies and have healthy babies. Let a woman make her own decision – she knows her body and beliefs better than her bosses do!

Please remove the proposed religious employer refusal provision from your Women's Preventive Services rule.

If all Religions care about humanity then it wouldn't endorse women to have unwanted pregnancies to exist in a dysfunctional and dangerous World. Let all WOMEN decide their fate with GOD and no one come in between including every Religion on Earth.

Let GOD be the judge of WOMEN.

Let Women practice safe sex, preventive pregnancies and diseases.
